Your life, family, and home are unique.
Unlike "one size fits all" solutions, get a fully
customizable one to blend with your lifestyle.

LIVE LIFE BRILLIANTLY

We connect smart devices to work in unison, delivering a truly intelligent smart home experience that makes life more convenient, safe, and enjoyable.

Much like electricity, plumbing and air-conditioning, a complete smart home is not a DIY project, we are fully equipped with the world's best control brands and expertise so that you get your home expertly designed and function the way you live.

CEDIA MEMBER

Explore the world of Integrated Home Technology

HOME

SPEAKERS**

MULTI-ROOM ENTERTAINMENT **Whole Home Audio**

Enjoy a rich listening experience wherever you want it. Listen to the same music throughout your home or simultaneously in selected areas with our multi-room audio setup.

Hearing is believing.

ARCHITECTURAL SPEAKERS

CORNEREDAUDIO

CORNERED speakers mount directly in corners or onto walls and ceilings without brackets. With a unique triangular design, Cornered speakers can be discreetly placed in applications such as on-wall, on ceiling, under balcony or of course in the corner, for a cleaner, more imaginative interior designs.

Sonance Soundbars

Sonance Soundbars feature an exclusive patent-pending adjustable width design that perfectly matches the dimensions of any 50" to 80" flat screen display.

REVOLUTION[®] acoustics

When it comes to seamlessly blending audio into the design of a home, nothing could be more effective than making the speakers literally disappear. As the demand for designer-friendly audio solutions has grown, so-called invisible speakers have entered the market from a number of manufactures.

LANDSCAPE AUDIO

Landscape Series delivers the best sound at the perfect volume throughout your backyard without disturbing your neighbors. Hidden out of sight and made to withstand extreme weather conditions, it's the perfect solution for your space.

- ▶ Make the most of the great outdoors
- ▶ Speakers should be heard and not seen
- ▶ The perfect volume, everywhere
- ▶ Keeping the peace
- ▶ Bring it indoors

Rock speakers and subwoofers in natural colors and textures; designed to hide in garden beds. Mariner speakers; perfect for courtyards and patios.

SpeakerCraft 

ARCHITECTURAL SPEAKERS

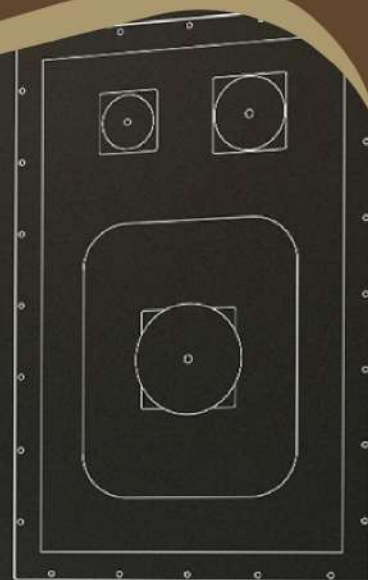

INVISIBLE SPEAKER

Invisible Series is the ultimate expression in architectural audio. Installed into the wall or ceiling and then finished over with the surrounding surface, Invisible Series speakers deliver ambient music that emanates throughout the space with no visual footprint.

CINEMA SERIES

Cinema series speakers deliver film soundtracks and music with reference clarity and realism, even in the largest home theatre rooms. These home theatre speakers combine elegant, modern style with an uncompromised home theatre performance.

TOTALY INVISIBLE

FORM FOLLOW SOUND

The simplicity of AS archetypal forms find endless possibilities through a wide selection of materials and finishes, engaging the senses in different ways and creating infinite design opportunities.

OFFICE AUTOMATION

VIDEO CONFERENCING

Spaces may differ but your needs remain the same—effective, and productive collaboration. With our tailor made Video Conferencing Solution you can walk into any space, confident you'll have high performance audio/video, easy access to video conferencing, wireless conferencing, and smart room control. Desktops to training rooms, home offices to global headquarters.

ACCESS CONTROL

Designed for modern businesses, Kisi is simple to install, provides seamless scalability for provisioning keys, and hands-off maintenance for your front door security system. Work more efficiently with the power of Kisi controlling your locks.

SURVEILLANCE

Secure your premises in an even easier way with video surveillance in the cloud can provide you with a complete, hosted video solution as a service. It's ideal for smaller business looking for a trouble-free, efficient solution, or companies with multiple sites, such as chains of convenience stores.

SOUND MASKING & PA SYSTEM **b. biamp.**

Today's offices feature smaller workstations, open office layouts and more reflective surfaces like glass and brick. At the same time, companies increasingly depend on information sharing and effective collaboration to maintain a competitive edge. This challenging environment demands both good acoustic design and the use of sound masking technology to ensure staff and customer comfort.
